SUMMARY

I am a computer and software engineer student currently at Kisii University working to achieve the best skills required in software engineering field to solve real world problems. I have passion for developing innovative programs that is efficient and effective for organizational success.Interested in writing codes that are reliable and user-friendly.I'm a skilled student with ability to motivate and manage junior software engineers.

EXPERIENCE

Built front-end websites using basics of HTML/CSS and JavaScript. Currently advancing in Java to acquire skills for building androids and IOS apps.**Acquired** basic knowledge in some languages like PHP for developing back-end websites, Node.js, API and SQL. Worked on a project to build a loan software system back in high school for national exams. Well conversant with computer packages i.e. databases, spreadsheets and Design and Word.

EDUCATION
